

INTERFLON

FOOD LUBE

Multi-purpose dry-film lubricant with MicPol® technology

Highly durable multi-purpose lubricating oil with MicPol® technology. For the lubrication of almost all moving parts, chains and cables. Suitable for use in food safe environments.

Interflon Food Lube is an extremely versatile dry film lubricant that can be applied to either wet or dry parts. Has a multitude of uses on general machine parts and leaves behind a highly durable dry film lubricant which virtually eliminates friction and wear, whilst preventing the formation of corrosion.

Key Advantages:

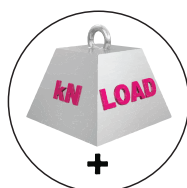

- Excellent, long lasting protection against corrosion and wear
- Strong resistance to water wash-out and spray off
- Resists dirt, dust and other contaminants
- Protects against rust and corrosion

Nonfood Compounds
Programme Listed H1

MULTI-PURPOSE

LIGHT LOADS

Applications:

- Chains
- Hinges
- Guide-ways
- Conveyor Belts
- Taps
- Threaded parts
- Pulleys

INTERFLON FOOD LUBE

Multi-purpose dry-film lubricant with MicPol® technology

1 product that replaces up to 10 conventional products:

- Penetrating Oil
- Chain Spray
- Contact Spray
- Gearbox Spray
- Silicone Spray
- Cutting Oil
- Rust Solvent
- Dry Lubricant
- Graphite Spray
- Corrosion Protector

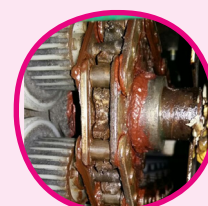

Practical example:

Sorting Table Drive Chains

Due to the harsh environment and water ingress into the chains the existing lubricant was washed out resulting in chain stretching and the need for replacement every two years.

Our solution

Interflon Food Lube

Result:

Using Interflon Fin Food Lube, the life of the chains has doubled to 4 years and the lubrication interval has increased from once a week to once a month.

Approximate saving over four years of £8,300
